

# **Networking Area Programme**

**Details available on the PEC2024 platform under the "[Registration](#)" tab**

## **Networking Breakfast**

The networking breakfast is an event filled with inspiring conversations and ideas. The aroma of morning coffee paired with snacks can be a unique opportunity to establish new business contacts. The relaxed and friendly atmosphere of the venue fosters the deepening of existing relationships and the building of new ones. The chance to present your business in two minutes is not only a chance to share common experiences but also provides valuable insights. The event can accommodate a maximum of 30 participants.

## **Speed networking**

Speed networking is aimed at entrepreneurs who value spontaneity. A specially designated space includes high tables where short conversations in pairs will take place. Each conversation lasts a maximum of 8 minutes (4 minutes for each participant). When the time is up, participants will switch partners. Taking part in this event creates an opportunity to meet more attendees.

## **Networking roundtables AI**

Networking roundtables AI is an event that involves dividing tables based on topics related to artificial intelligence established by a specialist. Each participant has the opportunity to freely express their views on the subject. Taking part in the meeting deepens interactions among entrepreneurs through the mutual exchange of opinions.

## **Problem Roundtables - Business Problems**

Problem roundtables - business problems is an event that involves dividing tables based on topics related to current changes in legal forms and addresses the ecological aspects of your business activities. Each participant has the opportunity to freely express their views on the subject. Taking part in the meeting deepens interactions among entrepreneurs through the mutual exchange of opinions.
